DD/R Functions

NPIC/D-30-62
23 Feb 1962

25X1

A. C. Lundahl, D/NPIC to DD/R (Attn:)
concerning relationship between NPIC's Equipment Development program and the
functions of the DD/R

Recommended that NPIC technical development program remain as an integral component
of NPIC lest its removal lead to a deleterious effect on NPIC's state of readiness
to receive any and all recon program materials for efficient and timely analysis.

NPIC would of course expect to establish close working relationships with DD/R,
including sharing of budgetary info and DD/R would have option of representation
at Joint Procurement Meetings convened quarterly by NPIC's Tech. Plans and Devel. Staff.
